Education

- **Karunya Institute of Technology and Sciences**, Coimbatore, India
B.Tech in Artificial Intelligence and Data Science *May 2027*

Experience

- **Mobile App Development - Intern** *June 2024 – July 2024*
Nandha Infotech, Coimbatore, India
 - Focused on Flutter-based mobile app development, UI design, and API integration. Contributed to a real-time agriculture project as part of a skilled team.
- **Full Stack Development - Trainee** *August 2024 – March 2025*
KIDS, Karunya University, Coimbatore, India
 - Gained hands-on experience in full-stack web development, working on real-time projects using React.js and Node.js, with focus on UI design and API integration.
- **Backend Developer - Intern** *May 2025 – August 2025*
Vyali Sports Private Limited, Tiruppur, India
 - Worked on backend web development for real-time client projects using Django, PostgreSQL, and Docker, gaining experience in deployment and scalable architecture.

Skills

- **Programming Languages:** C, Python, Java
- **Tools and Frameworks:** React.js, Git, TensorFlow, Streamlit, Scikit-learn, Firebase, Supabase, Figma, OpenCV, PyTorch, Power BI
- **Databases:** SQL, PostgreSQL, MongoDB
- **Other Skills:** Data Analytics, Machine Learning, Web Development, Data Science

Projects

- **AgriGenesis - UI Design**
 - Designed a user-friendly Figma app for farmers with crop management, weather updates, and forums, featuring intuitive navigation and essential farming tools.
 - **Tech Stack:** Figma
- **Sparks - Frontend Website**
 - Built a responsive website with HTML, CSS, JavaScript, and Bootstrap, showcasing interactive layouts and modern web design.
 - **Tech Stack:** HTML, CSS, Bootstrap
- **Food Waste Monitor - Machine Learning**
 - Developed a website to track food stock, identify expired items, and visualize data trends with interactive charts.
 - **Tech Stack:** React.js, Django
- **AGENTRIX - AI Platform**
 - Built a platform to automate frontend and backend generation, GitHub code push, and deployment (frontend on Netlify, backend on Render).

– **Tech Stack:** React.js, Django, PostgreSQL, Docker, Crew AI

Achievements

- Secured **First Place** in a hackathon at Karunya Institute of Technology and Sciences for building an Attendance Automation System
- **Finalist** in a hackathon at Kumaraguru College for building a cyber case management system
- Won **First Prize** in a hackathon at Karunya Institute of Technology and Sciences for AI-based solutions in Multi-Agent Systems and DevOps
- Won **Second Place** in the **Code O’Clock Hackathon** conducted by SAAS22 at Coimbatore Institute of Technology for AI-based solutions in a **Call Intelligence Platform (Smarter Partner Conversation)**
- Secured **Ninth Place** in the **Google Hackathon** conducted by Google and GeeksforGeeks at Karunya Institute of Technology and Sciences for **AI-based Energy Behaviour Prediction using IoT Sensors**
- Received the **Best Project Award** in the **DevArena Hackathon** conducted by TVS Next at Easwari College of Engineering (SRM) for **AI-powered Safety Monitoring for Smarter Shop Floors using IoT Sensors**

Certifications
